Growth Fanatics
DEVOPS

Eyal Ahimas
CEO, CO-FOUNDER

Roy Bernat
CTO, CO-FOUNDER

We are the innovators who craft infrastructure that bring exponential growth to your startup.

Our mission is to build DevOps practices that drive innovation and help you reach from MVP to Production Grade within months.
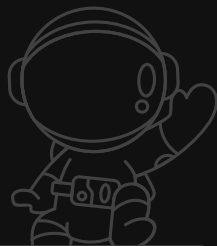

Whether it is ensuring your infrastructure and CI/CD pipelines are scalable, mitigating failure points, optimizing performance, maintaining uptime, saving developers' time, or minimizing costs, we are your trusted DevOps team.

Hear from the Innovators Who Grew With Us

> IAMOPS supported us in creating and deploying a multi-cloud infrastructure on both Azure and AWS platforms. As a rapidly expanding startup, we sought out the top Israeli DevOps as a service provider and found a perfect match in IAMOPS DevOps. In my experience, IAMOPS is the ideal DevOps collaborator to partner with.
>
> **Ruby Boyarski**
> Co-Founder and CTO @ClariFruit

> As a fintech-based application, we needed a highly secure infrastructure and high availability, IAMOPS helped us create an infrastructure compliant with PCI guidelines. We needed visibility to monitor our application, the SRE engineers at IAMOPS created a custom monitoring solution with Grafana which is more cost effective and efficient. They are truly experts at AWS pricing.
>
> **Gil Peretz**
> Co-founder and CTO @Sunlight

> IAMOPS DevOps Team handles our extensive workload successfully. For us, UPTIME is money and their dedication and responsiveness, I can sleep tight.
>
> **Omer Henya**
> Co-Founder & CTO @Spinomenal

> IAMOPS has the top DevOps team who helped us implement cost measurement automation where we could track cost per service and cost per day by account. The entire team is highly responsive and provides and equal experience for an employee on the payroll.
>
> **Shimon Harari**
> VP IT & Cyber @Mobideo
